

Important Student Information

Students currently not employed in a registered Early Childhood Education and Care Service

Overview of Student Training and Assessment

The CHC50125 Diploma of Early Childhood Education and Care is a higher-level qualification. This qualification requires students to build on the beginning abilities of a Certificate III in Early Childhood Education and Care Educator, and includes the ability to analyse information, provide and transmit solutions to sometimes complex problems as well as lead and direct others.

Learning and assessment activities are structured to identify key concepts relative to required knowledge and skills while offering extended learning and research activities. Under this structured learning and assessment framework, students are required to *Remember, Understand, Apply, Analyse and Evaluate* these key concepts.

Students who are currently not employed as an Educator are likely to have restricted access to regulated Early Childhood Education and Care environments and are required to complete unpaid workplace learning integration as a volunteer at times appropriate to the service. This restricted access limits the amount of opportunity for learning through observation of experienced educators as well as impacting the availability of feedback and guidance from supervisors related to acceptable work practices.

Students are encouraged to spend additional time reviewing the underpinning knowledge by watching videos and following all study activities within each unit of competence.

Students who successfully complete all of the requirements for a qualification are issued with the appropriate nationally recognised award. Students who complete part of a qualification are issued with a Statement of Attainment.

Entry Requirements

Students within this cohort ***are not currently working in a regulated Early Childhood Education and Care service*** as an Educator (students undertaking volunteer work placement).

In addition to this:

- Student must be a minimum age of 16 to be eligible for enrolment, however the job role requires educators under the age of 18 to be supervised within a regulated EC service.
- Students need to be physically fit as the role involves providing direct personal care, lifting and other physically demanding activities.
- Working with Children Check is a requirement.

Students must have either:

- Completed CHC30121 Certificate III in Early Childhood Education and Care, its equivalent successor, or CHC30113 Certificate III in Early Childhood Education and Care; OR
- An Australian diploma in Early Childhood Education and Care or an Australian diploma or certificate III in Children's Services, and one of the following:
 - Demonstrate at least 12 months of cumulative employment (full-time equivalent) within the last 5 years in a regulated education and care service in Australia, supported by verifiable evidence.
 - Hold the CHCSS00147 Entry into Diploma of Early Childhood Education and Care skill set.

Duration and AQF Volume of Learning

This qualification requires a Volume of Learning consistent with the AQF descriptors between 1200 to 2400 hours of training.

To allow for appropriate learning opportunities and completion of required assessment, the standard duration for this student cohort is 18 to 24 months.

A shortened duration may be acceptable where the students hold higher level qualifications or are experienced in the workplace and have most of the required skills and knowledge.

Expected Hours for Training and Assessment

As a volunteer educator, approximate training hours will vary significantly depending on the opportunity to access workplace learning integration. Students will need to allow approximately 4 hours per week of self-paced study in addition to workplace training and assessment completion.

Students may complete the program earlier than these timelines through RPL, CT or extended application to studies.

Resources and Training Materials

Students are provided with **all** learning and assessment materials required for successful completion of the course including the textbooks: “Birth to Big School”, “The Big Picture”, “Frameworks for Learning and Development” and “The Business of Child Care”.

Supervision and learning and assessment guidance

All workplace (skills) tasks are required to be completed in a regulated Early Childhood Education and Care environment under the supervision of a qualified educator, while theory (knowledge) tasks can be completed as a self-directed assessment activity.

To meet this requirement students are encouraged to coordinate supervision of tasks with the available persons and resources at an appropriate time. In order to achieve this, the following strategies are suggested as appropriate.

Strategies to coordinate supervision and learning and assessment guidance

Volunteer Educators may have access to appropriate supervision of tasks through:

- LDC and Preschool supervisors while completing workplace learning integration
- College trainers and assessors

Suggested ways to coordinate supervised activities for volunteer educators:

- Complete tasks while undertaking workplace learning integration LDC and Preschool with Centre supervisors
- College trainers to identify tasks which are able to be completed through a simulated work environment.

NOTE: Trainers must approve supervision strategies as appropriate for each individual student.

Sequencing of units and assessment activities

Units are sequenced to build a students’ knowledge of Early Childhood Care and Education practices.

Students **with regular access to workplace supervision and guidance** are required to complete the theory (knowledge) tasks before attempting the workplace (skills) tasks for that unit. Once students have completed the knowledge and skills tasks for each unit they are able to move onto the next unit.

Students **with minimum access to workplace supervision and guidance** are required to organise supervision of workplace (skills) tasks, students are required to complete theory (knowledge) tasks for a group of units. Once students have completed the knowledge tasks for a group of unit’s students are able to coordinate appropriate supervision of workplace (skills) tasks.

Types of Assessment including Recognition of Prior Learning (RPL) and Reasonable Adjustment

Students must complete **all** required tasks as part of their learning experience. This assessment evidence forms part of the overall competence judgement

There are 3 forms of assessment used:

- Theory tasks (knowledge evidence)
- Workplace tasks (practical skills evidence)
- Observation tasks (observed skills evidence)

Education Pathway

There is a direct pathway between this qualification and a higher-level university qualification.

Government Subsidies and Loss of Entitlement

The NSW Government provides funding programs for volunteer educators under the Targeted Priorities model for Smart and Skilled. *This training is subsidised by the NSW Government.* Under this arrangement, students may be required to pay a contribution towards the cost of training through an admin fee. Targeted Priorities programs are available to eligible students in NSW. Where students have a previous qualification or have attempted an alternate qualification under the Entitlement program, students will remain able to access subsidies but may be required to pay a higher admin fee for the second qualification.
